  - Provides multiple constructs for entrepreneurs to be successful and pathways for their companies to achieve sustainable growth

- Business Organisation and Management

  - Learned the Startup and Business Formation Offered by Prof. Nawal Kishor of Indira Gandhi National Open University, New Delhi

PROJECTS

CounsellorX Web App – *Founder*
This app empowers students to navigate their undergraduate journey. By exploring interests and aligning them with career paths, it guides students towards the perfect academic stream. Additionally, it leverages real student insights to help choose the ideal college that fits individual needs and preferences.

Build with Reactjs, Nodejs, Firebase
31 Open Source Contributor Working on this project

CropForesight Web App
Assist farmers and agriculture enthusiasts in making smart choices about which crop to grow on their land

ImageX
ImageX empowers skin health! AI analyzes your photos, suggesting potential diagnoses & offering personalized care tips. Accessible, accurate, & always learning – your pocket dermatologist!
Build with Reactjs , Django , Python , Azure Blob Storage

This project was building under Imagine Cup 2024 Competition

MINI PROJECTS

Book finder – Find Globally Books in one shot with using googleapis.com

MentalMate
Implemented Azure Health Chatbot on website with customize
datasets . The project is listed under Globally top 5 project in Microsoft

Portfolio– Created my interactive JavaScript Resume (https://thestarsahil.me/)

Certificates

- **Github Foundation**
- **Microsoft Open Source Contributor**
- **ISRO - GIS and Remote Sensing**
- **Microsoft Azure Responsible AI Workshop - Coach**
- **Microsoft Ambassadors Project Team Lead**
